

The meeting was started at 5:00pm.

Presentations:

Group Study Rooms 22, 22A, 22B, 23, 23A Storefronts Remodel:

Goal: To assist improve the accessibility, safety, and performance for students.

The presenter spoke about how those rooms already have updated furniture and television monitors, but are not accessible. The new room design would include wave-to-open doors, new windows, and better lighting.

Water Purifiers for the Biology Building:

Goal: Remove 30 old water purifiers and put in 15 new water purifiers.

The presenter said that when the biology building was built, the current water purifiers worked well, but now they are breaking down all the time and need to be replaced. They plan to remove all the old purifiers and put in more updated purifiers.

New chairs for :

Goal: Upgrade Chairs in the Micro Lab

The presenters outlined that some of the chairs in the micro biology lab are 40 years old. They are falling apart and the updates would provide students with functioning seats.

Vote of Legitimacy:
